BOOK SYNOPSIS

Adam Smith's masterpiece, first published in 1776, is the foundation of modern economic thought and remains the single most important account of the rise of, and the principles behind, modern capitalism. Written in clear and incisive prose, *The Wealth of Nations* articulates the concepts indispensable to an understanding of contemporary society; and Robert Reich's new Introduction for this edition both clarifies Smith's analyses and illuminates his overall relevance to the world in which we live. As Reich writes, "Smith's mind ranged over issues as fresh and topical today as they were in the late eighteenth century--jobs, wages, politics, government, trade, education, business, and ethics."

THE WEALTH OF NATIONS MODERN LIBRARY - Are you looking for Ebook *The Wealth Of Nations Modern Library* ? You will be glad to know that right now *The Wealth Of Nations Modern Library* is available on our online library.
